EUROPEAN UNION EU MISSIONS

Added value of mission Soil Deal for Europe

- Novel approach to R&I: Combination of R&I activities, local testing grounds, monitoring and training activities in a joined up manner that could not be implemented by individual parts of Horizon Europe or other instruments at EU or Member State level
- Mobilisation of diverse actors across EU, Member State and society in ways that would not happen otherwise
- New Soil Strategy, European Soil Observatory and Mission together build an effective framework for soil protection and restoration

EUROPEAN UNION EU MISSIONS

A Soil Deal for Europe – Goal: 100 living labs and lighthouses to lead the transition towards healthy soils by 2030

1. Reduce desertification
2. Conserve soil organic carbon stocks
3. Stop soil sealing and increase re-use of urban soils
4. Reduce soil pollution and enhance restoration
5. Prevent erosion
6. Improve soil structure to enhance soil biodiversity
7. Reduce the EU global footprint on soils
8. Improve soil literacy in society

Each specific objective is backed by one or more quantified targets and measurable indicators. Objectives apply to all types of land use.
